

# Cordella Token (\$CRD) - Whitepaper

## Overview:

Cordella Token is an ERC-20 token created to provide high-yield staking opportunities and community-driven rewards. Its goal is to empower users with a transparent, secure, and scalable financial instrument built on the Ethereum blockchain.

## Tokenomics:

- Token Name: Cordella Token
- Symbol: CRD
- Total Supply: 1,000,000,000 CRD
- Network: Ethereum Mainnet
- Staking APY: 180% annually

## Utility:

\$CRD is designed primarily for staking rewards and governance participation. Token holders will be able to vote on future development proposals, community projects, and ecosystem growth strategies.

## Roadmap:

- Phase 1: Token Creation and Smart Contract Deployment
- Phase 2: Website Launch & Pre-Sale
- Phase 3: Listings on DEXs and CMC/CG
- Phase 4: Staking Platform Launch
- Phase 5: DAO & Governance Integration

## **Cordella Token (\$CRD) - Whitepaper**

Security:

Cordella Token is based on verified ERC-20 standards and is subject to community audits.
